PROFILE

Cyber Security undergraduate with hands-on experience in Java Swing, JDBC, MySQL, and front-end web development. Built real-world applications emphasizing clean UI design, database integration, and CRUD operations. Seeking software development internships or entry-level roles.

PROJECT

Student Management System (Java + MySQL)

- Developed a Java Swing-based desktop application to manage student records
- Implemented secure admin login authentication using JDBC and PreparedStatement
- Designed features to add and view student information
- Integrated MySQL database for persistent data storage
- Performed CRUD operations for efficient data management
- Gained hands-on experience in GUI design and database connectivity

WORK EXPERIENCE

CodeSprint Tech 2025

- Designed and developed responsive web pages using HTML, CSS, and JavaScript
- Built interactive UI components to improve user experience and usability
- Deployed and managed frontend projects using GitHub
- Worked on real-world frontend tasks following standard development workflows

EDUCATION
